PROFILE

Experienced Frontend Developer and Software Engineering graduate with 5+ years of experience designing and developing responsive, high-performance web and mobile applications. Proficient in React.js, Next.js, TypeScript, and modern UI frameworks. Adept at translating UI/UX designs into production-ready code, integrating REST APIs, and optimizing performance across devices and browsers. Highly skilled in building reusable components, implementing design systems, and enhancing user experience and SEO visibility. A collaborative team player experienced in Agile environments, passionate about leveraging modern technologies and best practices to deliver innovative digital solutions.

WORK EXPERIENCE

Frontend Developer, LabLabee, Oran, Algeria   **Aug 2023 — Present**

- Contributed to a **multinational EdTech best startup in the telecom sector**, developing hands-on lab platforms for future networks.
- **Enhanced UX and responsiveness** by developing scalable features with React.js and Material UI, **increasing user engagement by 30%**.
- **Delivered interactive dashboards** in collaboration with design teams, improving usability and engagement.
- Developed **reusable UI components** and integrated **REST APIs**, boosting consistency and speeding up delivery.
- **Improved SEO and brand visibility** by leading the marketing website development in Webflow.
- Ensured **code quality** and reliability through reviews, **agile sprints**, and testing practices.

Part-time University Teacher, USTHB, Algiers, Algeria   **Mar 2023 — Aug 2023**

- Taught courses in **software engineering principles, web technologies, and application development**.
- Guided students through **project-based learning**, emphasizing clean architecture and problem-solving skills.
- Designed and evaluated **assignments, labs, and final projects**, fostering practical coding proficiency.
- Mentored students on **career readiness and industry best practices**, bridging the gap between theory and real-world development.

Frontend Developer, KSM-IT Consulting, Amiens, France   **Apr 2022 — Apr 2023**

- Delivered high-quality web projects on time for **international clients**, ensuring **top performance and scalability**.
- Turned UX/UI designs into engaging, interactive features using modern **web and mobile technologies**.
- **Improved site speed and UX** by fixing performance issues and optimizing front-end code.
- Boosted organic traffic by **40%** through **technical SEO** and collaboration with cross-functional teams.
- Maintained **clean, reusable code** and applied modern **best practices** for long-term project quality.

Frontend Tech Leader, WeOneIT, Algiers, Algeria   **May 2023 — Aug 2023**

- Led frontend teams and managed projects from concept to delivery, **achieving 100% on-time completion**.
- Oversaw **code quality**, **documentation**, and **best practices** to ensure scalable, maintainable products.
- Collaborated with stakeholders to **align goals** and **deliver impactful user experiences**.

Frontend Developer, WeOneIT, Algiers, Algeria   **Jan 2022 — Aug 2023**

- Designed and launched responsive **web and mobile interfaces**, ensuring seamless performance across devices.
- Built reusable components and optimized frontends for **speed, scalability, and accessibility**.
- Enhanced **user experience and engagement** through continuous testing and data-driven improvements.
- Boosted **website visibility and traffic by 35%** through performance optimization and UX refinements.

Full-stack Web Developer, KUMA Consulting, Oran, Algeria   **Mar 2021 — Dec 2021**

- Developed and deployed **end-to-end web applications**, managing both frontend and backend logic for seamless functionality.
- Designed **responsive, user-friendly interfaces** and integrated them with secure backend APIs and databases.
- Implemented **authentication, data management, and server-side operations** to support scalable performance.
- Collaborated with cross-functional teams to **analyze requirements, plan sprints, and deliver projects on time**.
- Optimized codebase for **maintainability, performance, and security**, ensuring long-term reliability.

EDUCATION

PhD Student   **2022 — Present**

Ecole Supérieure en Informatique, Sidi Bel Abbès, Algeria

PhD student and researcher at the Higher School of Computer Science, 8 Mai 1945. My area of expertise lies in **Information and Decision Making Support Systems**. As a dedicated scholar, I am deeply engaged in studying and exploring advanced techniques and methodologies to enhance information systems.

Master 2 in Software Engineering   **2016 — 2021**

Ecole Supérieure en Informatique, Sidi Bel Abbès, Algeria

Master's degree in **Information Systems and Web** from the Higher School of Computer Science, 8 Mai 1945. This comprehensive program provided me with a strong foundation in **understanding and designing effective information systems** for the web environment.

Software Engineer   **2016 — 2021**

Ecole Supérieure en Informatique, Sidi Bel Abbès, Algeria

I pursued a specialized education in **Information Systems and Web Engineering** at the Higher School of Computer Science, 8 Mai 1945. This program offered a comprehensive curriculum that encompassed various facets of information systems and web technologies.

TECHNICAL SKILLS

- **Frontend:** React.js, Next.js, TypeScript, JavaScript (ES6+), HTML5, CSS3, Tailwind CSS, Material UI, Redux, Zustand, GSAP, Webflow, Responsive & Mobile-first Design, UI/UX Implementation
- **Backend:** Node.js, Express.js, REST APIs, MongoDB, Firebase, Authentication (JWT/OAuth), API Integration
- **Tools & Workflow:** Git, GitHub, VS Code, Postman, Figma, Jira, Notion, Vercel, Netlify, npm/yarn, Agile/Scrum, SEO Optimization, Performance Auditing

PROFESSIONAL & PERSONAL PROJECTS

- 🔗**Cloudie - Smart File Management**:
  Cloudie is a secure cloud-based file storage and sharing platform, similar to Google Drive. It allows users to safely store, access, and collaborate on documents anytime and anywhere.

- 🔗**Lablabee - Telco E-learning Platform**:
  Lablabee is an interactive e-learning platform offering hands-on labs in Telco Cloud technologies. I collaborated with the web team on feature implementation and UI enhancements for both the application and the website.

- 🔗**ResumAI - AI Resume Feedback App** :
  ResumAI helps job seekers improve their applications by uploading resumes and job descriptions to receive instant AI-powered feedback, tailored recommendations, and application ratings.

- 🔗**Docs - Collaborative Editor**:
  Docs is a collaborative text editor inspired by Google Docs. It includes real-time editing and shared workspaces for seamless team collaboration.

Note: Additional projects are available in my online portfolio, showcasing a wider range of UI implementations, responsive design, and full-stack integrations.
